### [Yaesu FT-891 update](#)

The Yaesu FT-891 is the smallest and lightest 100W HF transceiver ever built at 155x52x218mm and 1.9Kg. Unfortunately, the 2A current draw on standby makes it unsuited for truly portable operations.

### [2016 Dayton Hamvention: Exhibits Photos](#)

Extensive photoset of Hamvention exhibitor spaces.

[The SWLing Post](#)

### [The Hamvention Takeaway](#)

You're looking at about two football fields worth of parking spaces, filled with cars, tents, and collapsible tables and the strangest electronic devices you've ever seen.

### [\\$25 satellite tracker](#)

I found a \$25 pan and tilt solution, meant for mounting cameras from drones.

[Paul's Projects](#)

### [80 meter inverted L](#)

I needed a cheap and relatively unobtrusive solution and I found one in Len Paget's (GM0ONX) design for an inverted L.
